I was just bringing the studies to peoples attention. No feedback needed.

Have fun with RD.

Hey Frank,

I'm going to miss the meeting (ironically, to talk pollinators with RD for the proposed aldicarb use on citrus). Let me know if there's anything you need from me for either.

Michael

In case you want to read ahead. Here are the two draft protocols I will quickly discuss and my responses to the companies (Thank you Tom, Keith and Kris for your feedback on these last year).

And also attached is the herbicide document that we have shared (or will share) with the other divisions. Sujatha and I reworked the document to be more palatable by our colleagues.

Frank

Subject: agenda items for our meeting tomorrow

Hello Team

We will have a short meeting tomorrow. Below are the agenda topics. Please let me know in case you have any more. Thank you.

1. 2,4-D study protocols (Frank)
2. Herbicides - larval chronic tox issue: next steps (Frank)
3. Miscellaneous (All)

Subject: any agenda items for our meeting tomorrow?

Hello Pollinator Team

I am inclined to cancel our meeting tomorrow as folks are just getting back from the holidays, unless you have a any topic/s for our meeting. Please let me know.

Also, please review the retrospective analysis draft that Holly shared before holidays and provide your comments by 1/11.

Thank you.
